STAFF APPAREL GUIDE

GREYSTAR®

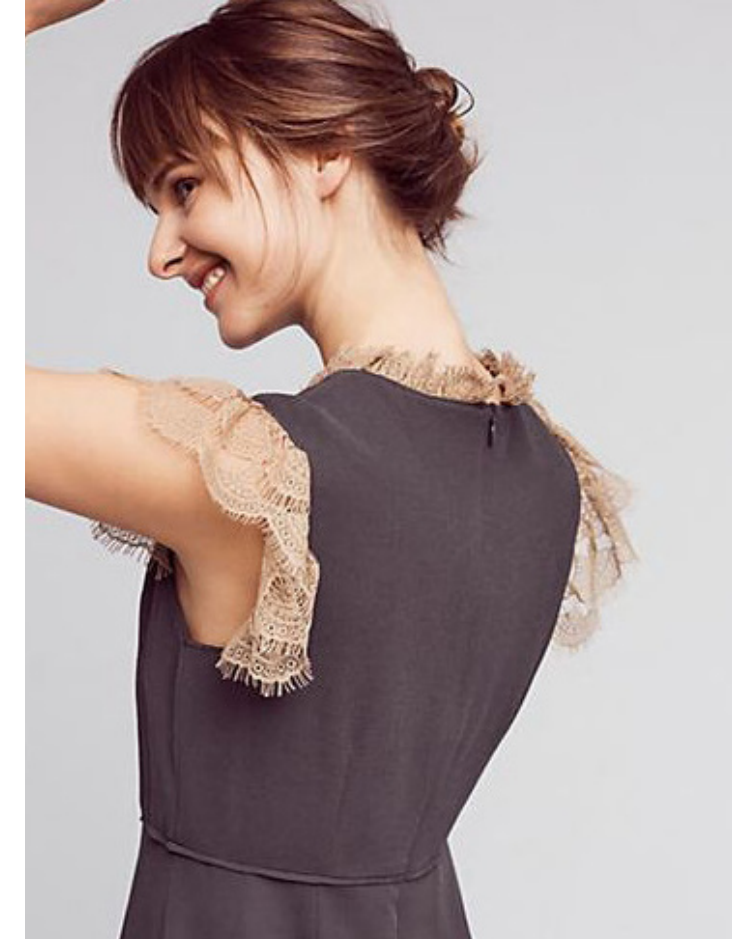

## THE LOOK

Rising up in the heart of North Hollywood's Arts District, The Weddington will bring in an influx of new residents, adding to an already vibrant community that has deep roots in the arts. This new generation is sure to carry on those traditions, embedding themselves in the fabric of this neighborhood of eclectic, hip businesses.

Much like the neighborhood itself, your style should be an artistic new twist on old classics. Though the foundation of your attire should be professional, you can find fun ways to break out of the norm by introducing pops of color, moments of pattern, or shifts in material texture.

We hope that each individual will preserve their authenticity and remain true to their personal style while staying on brand and always dressing professionally. Our Staff Apparel Guide will serve as a helpful tool to not only inspire, but also to lead you in the right direction when choosing your daily work attire.

## LADIES

Professionalism with an eclectic, artistic twist is the wardrobe aesthetic of choice for The Weddington. While we celebrate uniqueness and garments that are a little bit off kilter, your overall look should always suggest credibility and competence. Leave the jeans at home and slip on classic tailored pants, patterned blouses, or make a bold but sophisticated statement by introducing a pop of color to a neutral outfit. Shoes should be classic and sophisticated; opt for chunky heels and oxfords over sandals and sneakers.

The images on the following pages should serve as inspiration when selecting your daily ensemble. From classic business-inspired suits to sleek new takes on more feminine wear, these looks will be your guide to dressing with style and comfort while adhering to dress code standards at The Weddington.

### RESPECT THE CLASSICS

*You can never go wrong with a nice pant and shirt combo. Add a tailored blazer for even more polish. Don't be afraid to mix suit pieces for an extra dash of personality.*

### SHAPE UP

*Slightly exaggerated or unconventional garment cuts can be playful and chic. Pair with tailored pieces or a plain shoe to reel the outfit back into the realm of professionalism.*

PLAY WITH PATTERN

Pattern through print or texture adds personality to an otherwise modest outfit. To echo the artistic nature of The Weddington, we recommend more abstract or painterly patterns.

## GENTLEMEN

At The Weddington, we encourage men to adopt a look that is rooted in tradition, but pushes the envelope through textures, colors, and patterns. Business casual attire can include long-sleeved dress shirts, ties, tailored blazers, sweaters, trousers, and close-toed shoes. Jeans of any kind are unacceptable. Walk with confidence and class by slipping on professional footwear such as cap-toe oxfords or loafers. Sneakers and sandals of any kind are not work-appropriate. We also ask that you maintain a neat, well-groomed personal appearance, ensure shirts are tucked in and that you keep facial hair neatly trimmed.

This guide contains suggestions that will help you select a wardrobe that incorporates your own personal style as well as The Weddington aesthetic. From streamlined sweaters to bold button-ups to professional, well-fitted trousers, this guide offers a variety of stylish and modern outfit options.

### SUIT UP

*The sleekest solution in your closet, a suit looks polished anytime. Skip the tie to make it a little less formal or pair pieces with an unexpected pattern or color shift.*

### OR KEEP IT CASUAL

*Mixing textures, like chambray with a knit sweater, is a great way to look sharp and stay comfortable. If you forgo the sweater, tuck your shirt in for added polish.*

CELEBRATE  
THE UNEXPECTED

A fun pair of glasses, a pocket square, or a surprising pattern are all great ways to make a standard professional outfit look and feel more unique.
